

Main Topic: 1B1 Skeletal System: Revision Sheet

Sub Topics

- The role of the skeleton in support, movement and protection
- Function of bone

Learning Outcomes

On completion of this section, students should be able to:

- **OB24** Identify the main parts of the human skeleton and understand that the functions are support, movement and protection
- **OB25** Locate the major bones in the human body including the skull, ribs, vertebrae, collarbone, shoulder blade, humerus, radius, ulna, pelvis, femur, tibia and fibula, using a diagram or a model skeleton

Learning Checklist:

Green - Excellent Understanding

Orange - Unsure

Red - Poor Understanding

| Where is your learning at? | Red | Orange | Green |
|---|-----|--------|-------|
| <i>Can you answer the following questions?</i> | | | |
| Name the three functions of the human skeleton | | | |
| <p>Can you label the following parts of the human skeleton in the diagram below</p> <p>Skull, ribs, Collarbone, Pelvis, Shoulder blade, Vertebrae, Humerus, Radius, Ulna, Tibia, Fibula, Femur</p> <div style="text-align: center;"> </div> | | | |
| <p>For each of the body parts listed below name the bone that protects it</p> <ul style="list-style-type: none"> • Brain • Heart • Lungs • Spinal Cord | | | |

Can you complete the following sentence;

Bone is made of _____ and _____ cells.

C _____ is a mineral that is very important to give our bones strength.

Red

Orange

Green
